Dear students,

Greetings from Placement & Training Office (PAT) Office!!!

As you are all aware, the recruitments for the 2022 passing out batch has already started and the first round of selection for TCS is in progress. Numerous other companies also have charted their schedule for the 2022 passing out batch.

In light of the upcoming recruitment drives, PAT Dept. is organising an exclusive **Aptitude Competency Development Training Program** for the 2022 passing out students, starting from **Tuesday, 21st Sept. 2021**

In addition to campus recruitment aptitude tests, this training will help you a lot in tackling various other competitive exams like PSC, UPSC, SSC, CAT, MAT, GRE, GATE, IBPS, RRB etc.

Professional trainers from **Pragmatix Learning Edutech**, an organisation of very high repute in this regard, will be handling the sessions.

Mode of training

- The classes will be held completely online, through ZOOM platform.

Program Commencement, class timings and duration

- The program will commence on **Tuesday, 21st Sept. 2021**
- The total duration of the program is **24 hours** which will be covered in 12 days (2-hour session per day)
- The timings of the classes will be from **6.00 PM to 8.00 PM** on all the days.

Areas Covered in the Program

- 1) Quantitative Aptitude
- 2) Logical/Analytical reasoning
- 3) Verbal Ability

There will also be one exclusive session on professional **resume building**

Terms and Conditions for participation. (Read carefully before you proceed to register)

- The program is **ONLY** for the registered participants from the 2022 passing out batch. The link for registration will be given at the end of this mail.
- Participation is **NOT** mandatory for all the students. Those who are really interested and are **SURE** to attend **ALL** the sessions **ONLY** should register. Partial or selective attendance will not be entertained under any circumstances.
- Once you have registered, then attendance is **MANDATORY**. Strict disciplinary actions will be taken against the absentees after registration. The absentees without proper justification will not be permitted to take part in future placement drives. This is not to offend any student but to avoid the

unwanted registrations and also to ensure that the registered students approach the training seriously.

Additional responsibilities for the registered candidates.

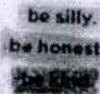

- After the registration is complete, all the registered candidates will get a link to access an LMS platform with individual user ID and Password on Monday, 20th Sept.2021. **The topics covered** on each day (for all 12 days) will also be published on the same day.
- Concept videos of about 40-45 mins length and 2 practise tests (30 mins each) for each topic covered in the training, will be available on the LMS platform. The concept video will cover all the important formulas/details regarding a particular topic.
- Before each day's session (as per the previously published schedule), the students **mandatorily** should watch the corresponding concept video and attend test No.1 **before** the session and test No.2 **after** the session. This should be repeated throughout the training. Since all the basic concepts and formulas are covered in the concept videos, the online classes will be more of problem solving and discussions. Hence it will be really difficult to follow the class without watching the concept video and attempting the sample test.

Registration Link (Registrations will be closed by 04.00 PM Saturday, 18th Sept.2021)
Since we have to create the login credentials for all the registered participants, late registrations cannot be processed.
