Dear Sir / Madam;

With reference to my previous previous e-mail regarding the **TCS Talent Acquisition Team visit**, Dr. John Joseph - Head Talent Acquisition - Kerala and Ms. Priyatharsini Ramasamy (Team member- campus recruitment), visited our campus on **27th June 2017** and interacted with our final year students about the latest recruitment trends and gamification in recruitment.

They also gave a brief idea to the students, about various contests and programs hosted by TCS, and also the the worldwide networking platform for the students, **TCS Campus commune**.

290 students from various branches (**S7 only**) have successfully registered to Campus campus commune and also for the PAN India coding contest organised by TCS i.e, '**Codevita**' which is will take place on the 21st and 22nd of July 2017.

Please find the attachments for a few pictures from the event and also the list of students who have registered.

Warm Regards;

Bibin Joy

They will be addressing our final year students about the latest recruitment patterns , various events organised by TCS and also will guide them in registering for the 2017 edition of the 'CodeVita' , one of the biggest national level coding contests organised by TCS which will take place in the last week of July. Please refer to the the attachments to know more about Codevita and Campus commune.

As informed, the process will be carried out in batches (8 batches) at the computer center in the following order .

- 1)CSE
- 2)ME
- 3)ECE
- 4)EEE
- 5)CE

The department placement coordinator/PAT team member will come to the respective departments, and will take the students to the lab accordingly.

Requesting you to give the necessary instructions to the respective class tutors to permit the students.

Warm Regards;

Bibin Joy

Respected Father;

Please find the below mail from Dr. John Joseph ,Head Talent Acquisition (Kerala) ,Tata Consultancy Services, regarding '**TCS campus commune**' and various programs conducted by TCS.

TCS conducts different events,contests and off campus placement drives for the B.Tech students every year, regardless of branches/specialisations.

To take part in any event conducted by TCS , the student should first register in their campus portal (<https://nextstep.tcs.com/campus/#/>) and obtain a '**DT: ID**' and

password.

Since we are looking forward to establish an association with TCS and explore the chances of getting their accreditation for campus placements this year, it can create a very good impression if we can make all our final year students to register with their **nextstep** portal.

A team member from TCS talent acquisition team, **Ms. Priyatharsini Ramasamy**, has agreed to visit the campus on **Tuesday, 27th June 2017** to help us with the registrations.

The process will take 30 mins. max which will include a 10 minute introductory talk. We would like to carryout the process in batches(8 batches) at the computer center.

Requesting you to issue the necessary approval if found satisfactory.

Dear Sir,

Warm Greetings from Tata Consultancy Services !!!

I am sure you must have heard about the **TCS Campus Commune Online portal** (<https://campuscommune.tcs.com>) which connects more than a Million students and help them to achieve the skills which make them Industry ready. In addition to being a learning and networking platform, TCS also conducts several **contests** through this portal resulting in lucrative prize money in addition to Job offers and internships.

This is in line with the changes in the recruitment methodology, which is transforming from the traditional recruitment methods to **gamified talent spotting** model and these contests are supporting TCS in a big way to identify campus talents irrespective of the location and institutes. Every year TCS conducts four main contests namely, CodeVita (Coding Contest), Testimony (Software Testing Contest), EnginX (Engineering Modelling Contest) and Hackquest (Ethical Hacking Contest). Out of these, **CodeVita** which is open for all the students irrespective of the Year of Pass, branch, institute is the largest contest, with 2.6 Lakhs registrations during the 2016 version. Apart from a total-prize money of 20,000 USD, top performers has a chance to get Job offers and Internships.

TCS has made close to 2500 offers across India through these contests and the share from Kerala colleges was just about 100. Request your support, so that more students from your institute register and participate in these contests.

Registration for **CodeVita** will end by **June 30th** and the first round for the Kerala colleges will be on [redacted]. Attached is a presentation and Code Vita contest note for your reference. We would be

PLACEMENT AND TRAINING OFFICE

To;

Date : 13th October 2017

Fr. Joju Chiriyankandath,
 Asst. Manger Finance,
 Jyothi Engineering College Cheruthuruthi.

Respected Father;

As per the decisions taken during the 'Placement committee meeting' held on 11th August 2017 12.30 PM, 4 days of pre- placement training (Aptitude) was provided for the current final year students by M/S Konfidence, Kochi.

In addition to the above, a software (PRAKTIZ -3) was purchased from M/S Konfidence, and is installed at the computer centre for the purpose of giving aptitude test practice for the students from S4- S8 during the PAT hours in their time table or whenever it is required.

The working of the software and the provisions to generate various reports as per the agreement seems satisfactory.

The Key Highlights of the terms and conditions of PRAKTIZ 3 include

- ❖ 25 Tests (available only in offline LAN mode).
- ❖ Lifelong Validity,
- ❖ Unrestricted no. of users and usage,
- ❖ Updates for the first 3 years,
- ❖ Free servicing and troubleshooting for the first three years. (Service visit yearly once).

24 August 2017

We take this opportunity to thank the management of Jyothi Engineering College, Cheruthuruthy for the purchase of our computer based Aptitude Test Practice system PraKtiz.

We are confident that the system will empower your students to perform at a higher level of competence in the aptitude tests.

The following are the **TERMS and CONDITIONS of SERVICE** that both of us agree to adhere to during our association with regard to PraKtiz.

Name of PraKtiz Module: PRAKTIZ 3 [13 tests of 40 minutes + 12 Full length Pattern Tests]

Usage Plan: Unrestricted College Usage Plan [No usage time limit; No number of users limit]

Support: Konfidence Education will give the placement officer / any other entrusted personnel full length training on the usage and administration of PraKtiz on the date of Installation.

Software Updates / Upgrades: Software updates will be free for the first 3 years.

Service Visits: For the first 3 years from the date of installation, there will be one free service visit by the company personnel. Additional service visits if required shall be charged at Rs 5,000/- per visit for the first 3 years. Service visits after the first 3 years shall be charged at Rs 5,000/- per visit.

Date of Installation: 24 August 2017

The computer based Aptitude Test Practice system PraKtiz will be installed in your server. Jyothi Engineering College shall ensure a premium PC (with good computational power and RAM) which shall act as the server in the LAN for the installation and smooth functioning of PraKtiz. PraKtiz is for usage by users connected to the server in which PraKtiz is installed and would not be accessible over the internet.

On installation, payment of Rs 99,000 shall be made by account transfer to,

① JYADBECC097:

The program was good. ~~But~~. Break ~~are~~ ^{is} sufficient, could have included some more problems. Data interpretation ~~was a class~~ was not sufficient.

② Training was great & valuable. Hope ^{for} more of this kind...

③ Training is good, ~~but with experience~~ basics are covered; ~~but with~~ ^{we have} ~~but~~ knowing how ~~does it~~ help us in our placement

4. I think training program is effective, but we need it atleast once in a week, so that we can be in touch with it. And also, we need such materials provided.

5. I think this program was good enough as within 2 days. But there are more topics which are generally asked during Aptitude tests. So I need another program with more concepts. But for a 2 day program it was good enough. We need a practical programmes like GD or tips to improve on ~~our~~ ^{our} performance

6. To me, the programme was good; but more importance is ~~to~~ to be given to the vocabulary Language sections. Also, more such sections are expected.

2) ~~The~~ First day was really superb, today's I didn't seem so. may be due to topics covered today. anyway all sessions were really good, ~~was~~

My suggestion - Vocabulary. There should be more session that concentrate on language;

To me, the training was useful. First day was more useful for me. I get a some idea about the aptitude. I will be sure that, these train type of training will be much useful for me in future. I had a good session in two days.

1. Training Session is really fruitful for us. Each session is informative. Specially verbal ability and logical reasoning. Data interpretation session is a bit difficult. 2 Day class is not sufficient.
2. It is really helpful for us. Very good programs.
3. All over this is a good programme. All the trainees take the class very well. It helps us for our future tests. Continue as per this pattern.
4. Training session is very helpful for us. Each class was very informative. Very glad to have these sessions.
5. Actually this program is very helpful for all final years. It helps us how to attend an aptitude test. We want more classes like this.
6. This program was good. But I want to increase 3 or 4 days more.

9. Training session ^{was} a very useful and informative. I suggest to increase the training sessions so that we can improve ourselves.
10. It is an effective class for us and it helps to understand various types of questions.
11. The training program was really beneficial and we were able to solve problems which we thought that could be ever done. It was really interesting and very informative too.
12. The training programme is very effective class and each schedule is starting in a correct time and it is give me a very helped to develop my attitude solving level. I suggest that give more sessions to improve the ability to solving these type of questions.
13. The training programme was very beneficial and effective. The problems can be easily solved through the Placement Training Programme.

14. The training is a new experience for me. Anyway I liked the classes. Some classes are little bit boring. But it became useful for the placements. Thankyou for the classes provided.
- 15) The training is good in major classes except someone we also need some TECH Aptitude for placements. Thankyou very much.
- 16) Efficient class to app
- 17) I found it difficult at the beginning, when the test was conducted. and I understood my level of solving problems, and after the 2 day programme of placement training, I could improve I think I've improved a much better as the classes were very useful to us.
- 18) I felt it beneficial and good, wish for more such programmes so that along with our academics we could do Aptitude and cross our placement screening. we need more g.d's and interview section also. so that before we face final ~~the~~ placements we are completely fit for it

- 19) The way of teaching is good. But I think some changes makes this class more interesting. The faculties who ~~to~~ ~~are~~ ~~were~~ teach us are have many years experience. So, they can know the more possible ways of study and portions which brings more result. Majority of pupils are here because of parents pressure and some have their own interest. So make all more interesting. ~~Give~~ ^{teach} more shortcuts to solve more problems in less time. Practice more problems.
- 19) Classes were good. But some lectures were boring. In the quantitative aptitude section, please try to insert more problems rather than lecturing. We would like to receive some more classes on verbal ability.
- 20) The way of teaching is very good, I think last class I have ~~done~~ not interesting class, but we would like to receive some more class on logical reasoning and quantitative aptitude.

→ A full day class is boring. Conducted it as 2 sections in the morning for one day and another half in the another day.

→ class is very interesting. Not boring. I think, a full day aptitude is very boring, but it is interesting. I liked the class. It is very informative. Each class give new new information for applying in aptitude test. I think this class very useful to me.

→ class is interesting but it will more good to include shorter sections as a mixture of grammar, mathematics etc. lengthier sections shortens student interest.

→ class was good and interesting. plz include the solving techniques of the test.

→ class was nice and interesting. the training should continue to next months also. I wish it will improve our skills.

→ classes are good. I think it sufficient for don not want more modification. for aptitude class it is to be enough.

- Provide us with more textbooks or soft copy's of text books related to Aptitude
- And provide us more information about the competitive exams
- Classes was very helpful
- Provide no need for modification. Aptitude classes helped us really well.
- Copys of Questions were given and really helped us for finding out the answers

→ Aptitude classes are really good.
 Continuous hours were boring at times.
 But our interests helped a lot in boosting our interests towards competitive exams.

→ Classes are good and the trainers but a full day with doing only aptitude was so boring. Its really useful that for us to is but if it is boring no one listens.
 Helped to know how to solve amms

- 4) Good class, Aptitude test is very Peda
- 5) Very awesome and beautiful class. But to say, add some more adventures events.
- 6) When I'm thinking about the classes, the classes were just AWESOME. ~~to~~ ~~at~~ and time ~~limit~~ ~~is~~ true, we need much more time for the sessions. & that ~~to~~ we can understand more. 😊
- 7) It has been an amazing class. Would love to attend more of these.
- 8) It was a useful programme. and was able to know more about the aptitude tests. ~~Do some~~ more programmes of this kind and also add some interactive sections

The class was good. We understood & studied about different ways to ~~create~~ ^{create} the problems.

Interesting classes were there. But whole day class is horrible.

→ conducting classes in the whole day is boring.
 Two days continuous - this type of classes feeling very sleepy. Provide more study materials and give a deep knowledge about one thing in one days is enough.

Classes are good. please provide study materials and conduct the class in morning only.

It is very nice class. we got an idea about aptitude test. We got an importance about that. When they the question paper and we can answer it. It is very effective.

Classes are very useful we got an idea about aptitude questions

Aptitude test ~~makes~~ ~~what~~ are helpful for me
 Now Because of this class, I get more knowledge about what I know

Classes are good enough to have a ^{good} view about how to prepare for the aptitude.

12. Training was good. But should include every students. The guys with low marks also after completing batch will encounter these kind of aptitude test in future. Then how will you give them training at that time?? Comparing and splitting students on the basis of marks is cheap. All the students should be included irrespective of mark.
13. Training was good and informative. Faculty are good in handling their work but some need to improve their class handling skills; and thanking you all guys for giving this opportunity.
- 14) I think that it is not good. because of some teachers are not interest to teach the classes. they simply come and say they like and go. but some teachers are very good in their profession. So that classes are very good. It's help to improve ~~my~~ quality

15) It's good to conduct classes like these, but don't make it compulsory for all students. Welcome those students who generally have interest in these classes, it will be helpful to them. For me the two day class was utterly boring & boring. So please take good care before conducting classes like these & arrange these classes for students who really have interest. So I hope that the remaining two classes will be conducted ~~in a way~~ for students who have interest & don't make it compulsory for all.

16) The training session was good but it was very boring. ~~Some~~ more activities must include in this session than only it will be interest for everyone. Different people have different kind of mind set so you must think what and proceed. Always answering the questions is not good method ~~horizontal~~ in ~~only~~ a ~~subject~~. So if you have includes different kind of ~~subject~~ ~~it~~. Then

The placement training program was very much helpful to us. All the sessions especially exams, verbal classes, logic oriented were very much enthalling. In my personal context, the schedule of exams was very much helpful - starting and ending of the session. By this, we came to know more about our limitations. Actually, ^{word} self evaluation is ~~for~~ more suitable. Not only that, normally mail writing is the session that we are not much aware of. By Mail writing session, we are very much confident to do mails and all. Overall, the whole training session was very interesting.

The placement & training programs which was held on Friday & Saturday by the 'Konfidence' group was really good. The aptitude test and the study materials which they provided will be useful for our aptitude test which we are going to face in upcoming semesters by the companies. Even though some of the classes were boring, some were good classes. Anyway I'm satisfied with this training program.

The placement training held on Friday and Saturday was very good and effective. It was really helpful for the improvement of the skills for the training of placement ~~training~~

The aptitude training pgm held on last day was very good. It will be useful for our placements.

All aptitude classes was very interesting. But emailing section was little bit boring.

The aptitude training pgm held on last day wasn't useful for us, since It is too basic (that we already covered). You have to ~~try~~ provide us GATE level aptitude test. So please increase the level of questions that are providing during the training Pgm.

The training was good overall. But there was many improvements I could find to be made.

The class never discussed any short cut method to reach answers of thus problems were time consuming and such shortcuts are found on internet.

The problems or class discussed was to short on boundary. The things that are present in internet was the same thing in class. Couldn't find it extra beneficial.

Grammar class was good. The one who teaches were having a negative thoughts about engineering / batch which they told us in class and negativity was passed on to us by them about not getting placed. It wasn't right way to ~~promote~~.

It was very useful classes

we had a English session to understand simple ways to get grammar, and easy way to understand.

English grammar classes, and it was a very

funny to interact with ~~off~~ teacher

it was very special classes for us. The class help us to

attend many amplitude questions with many techniques

and small simple ways to attend questions in a

systematic way, and mathematics class also help us

get out answers without calculating by using

calculator. and it was very interesting classes.

All were very interested in doing such problems

~~Totally~~ the class were very useful.

The training was useful although the E-mail session was little bit lagging but the trainer was able to make us understand the importance of a E-mail format. The other sessions were good and I think all who attended the 2 day class learnt how to attend for an aptitude test with Confidence.

The placement class was very use full to me. The first day I very interesting butns are to be give most valuable equations are to be geted. The importance of E-mail format. the equations discussed. and the easy way to implement the equations. The training was useful although the E-mail session was little bit lagging but the trainer was able to

The training was good overall. It was very useful classes which helps us to get placement. We had a english session to understand simple ways to get grammar and easy way to understand english grammar classes and it was very nice to interact with teacher. It was very special class for us. All were interested in doing such problems totally the class was very useful.

The training was good overall. But there was many improved grammar class was good. It was very useful class which helps us to get placement.

The session was useful to us. The class was very efficient to learn the basic knowledge for competitive exams. Very funny and valuable class.

There are lot of classes which are very useful for our future- Email classes, Aptitude test etc will moulding up to all.

The training was good overall. But there are many improvements I could find to be made

The class never discussed any short cut method to reach answer & these problems were consuming and such short cuts are found in internet. The problems or class discussion was so short on boundary. The things that were presented in internet was thing so that

the same thing in class.

Grammar class was good. The one who teach were having a negative thoughts about Engineering / b-tech which they told us in class and negativity was passed on to us by them about not getting placed. It wasn't right way to convey. It was very useful classes which helps us to get Placement.

We had a English session to understand simple ways to get grammar, and easy way to understand. English grammar classes and it was very funny to interact with teacher.

It was very special classes for us. The class help us to attend many aptitude questions with many technique and small simple ways to attend questions in a systematic way and mathematics class also help us to get out answers without calculating by using calculator and it was very interesting classes. All were very interested in doing such problems. Totally the class was very useful.

SHAPING YOUNG MINDS PROGRAMME

The objectives of the programme

- Inspire young people, both students and professionals in management.
- Many young people today have bright minds, which need shaping up on what to expect in a management career - they are always seeking advice from icons.

About the Programme

The young managers are exposed to four speakers from different fields including Public Domain, Corporate World, Creative Field, Media and Sports/Adventure etc. The four icons invited are requested to narrate their experiences in an anecdotal form with a view to conveying lessons from their lives. Specifically we request them not to talk down but narrate their story which indirectly brings out the lessons from the lives of icons, who the young managers consider their role models. Each speaker is requested to speak for 30 minutes, which is followed by a Question Answer session of 45 minutes.

The format of the programme is to have the speaker as well as a panel of 8 (pre-selected) students on the dais.

The style of speech may be anecdotal, storytelling and coaching; and not preachy or jargonistic. It could center on personal experiences or something large that has gripped imagination – the idea ultimately is to deliver a charismatic message that will leave an indelible mark on the Young Minds.

THINK
CREATIVE

Some of the topics the Icon could speak on:

- A big idea that has influenced the Icon.
- Mistakes made & lessons learnt.
- What life has taught.
- How to keep young while growing older.
- How to think about developing your management career.
- How to enjoy your career.
- The first big success in career.
- Thinking positively about stress.
- Creating a work life balance.
- Managing your ambitions.
- Getting the winning spirit.
- Creating a never say die attitude.
