ORDER

Financial Assistance Policy for Research & Publications

(Version 2)

The Jyothi Engineering College, Cheruthuruthy (JECC) aims to improve overall research performance and promote research activities undertaken by various Departments/ Faculty Members. For this purpose, the Institute has introduced Research Incentive Scheme (RIS) to the Faculty Members. RIS is a means to assist with research activities and reward staff for successful publication or presentation of research outputs.

Objective:

To give a special thrust to the research culture in JECC, and thus ameliorate the profile of the Institute in the Country.

Research Incentive Scheme (RIS)

- The Faculty who are receiving any Research Allowance or Fellowship are not eligible for RIS.
- The Quality Publications (SCIE/ SCOPUS Indexed Journals, Conferences) only will be considered.
- The publication which is a part of Ph.D. programme (with Ph.D. Supervisor as Co-author) will not be considered.
- Publications with Jyothi Engineering College Affiliation will only be considered.

The details of the incentives are as follows:

I. Journal Publications

- Publication Cited in Thompson Reuters (SCIE) : Rs. 7000/- paper
- Publication Cited in Scopus : Rs. 3000/- paper

Sl. No.	Criteria	Weightage
1	Single Author Publication	100%
2	If First and Corresponding Authors are Faculty Members	50% each
3	If more than Two Authors	The First and Corresponding Author share 70%. Others 30 %

NBA accredited B.Tech Programme in Civil Engineering valid for the academic years 2019-2022

-2-

II. Conference Publications

i. Conferences with SCIE/SCOPUS Indexed proceedings:

- Registration fee can be reimbursed up to 50% with the maximum cap of Rs. 2,000/-.
The weightage for the Authorship will be considered as per the above Table in Section I.
- Duty leave will be provided.
- TA/DA assistance can be provided on a case-by-case basis, on the request of the concerned person to the Management.

ii. Conferences with published proceedings with reputed publishing houses like IEEE, ACM, Springer, Elsevier, etc. (or equivalent)

- Duty leave will be provided.

III. Patents

- Granted with Institute as one of the Inventors/Assignee : Max. 20000/-
- Granted with Institute Affiliation : Max. 5000/-
- If more than one Inventor, incentives will be equally divided.

Management will take necessary decision on a case-by-case basis.

IV. Funded Projects

Incentive will be paid to the team of Investigators of research projects with external funding in an amount equal to 5% from institutional overhead. This incentive will be paid in two parts – 3% after receipt of the 70% of the project amount and the other 2% on completion of the project and receipt of the balance amount of the project. The incentive amount is divided equally among all the Investigators.

V. Consultancy Projects

- If there is a substantial contribution by the Faculty Member and the Staff in the consultancy project and no resources of the College (like laboratory, computer, software etc.) utilized, the members involved in the consultancy project will take 80% of the total net amount so received by the Institution and 20% will go to the College. If there are more than one person involved in the consultancy project, the amount will be equally distributed.

Financial assistance to Journal Publications

1. SCI Indexed
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 20,000 INR for SCI indexed publications (not part of PhD work).
 - b. Registration fee can be reimbursed up to 50% with the maximum cap of 10,000 INR for SCI indexed publications (part of PhD work).
2. SCOPUS Indexed
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 10,000 INR.
3. NATIONAL/International JOURNALS OF HIGH PROFILE
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 5,000 INR.
4. UGC RECOGNISED Journals (except the dubious ones)
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 3,000 INR.
5. Others
 - a. No assistance

Conference Publications

1. International/National conferences with SCI/SCOPUS indexed proceedings
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 20,000 INR for international conferences. Duty leave is provided. Further TA/DA assistance can be provided on a case-by-case basis, on the request of concerned person to the Management.
 - b. Registration fee can be reimbursed up to 50% with the maximum cap of 10,000 INR for national conferences.
2. National conferences with published proceedings with reputed publishing houses like IEEE, ACM, Springer, Elsevier, etc. (or equivalent)
 - a. Registration fee can be reimbursed up to 50% with the maximum cap of 5,000 INR for national conferences. Duty leave is provided.
3. Conferences with dubious backgrounds and publishing houses & others
 - a. No assistance is provided.

FDP/Workshops/etc.

1. IIT/IISc/NIT/ISRO/CDAC (or equivalent)
 - a. Duty leave is provided
 - b. Half of the registration fee can be reimbursed up to 5,000 INR
2. AICTE/UGC/KSCSTE/KTU Sponsored
 - a. Duty leave is provided
 - b. Half of the registration fee can be reimbursed up to 3,000
3. Local FDP at AICTE approved colleges
 - a. Duty leave is provided
4. Other
 - a. Duty leave can be provided with the discretion of the Management.
 - b. No assistance provided.

NOTE:

- The above publication assistance is given to technical papers with staff as the primary author with Jyothi Engineering College (JEC) as their primary affiliation shown in the paper.
- PhD students registered at JEC are considered as par with teaching faculty for the above financial assistance.
- All other students as primary author (for papers produced as part of their regular curriculum work) gets half of the financial benefit as stipulated above. Students can avail this facility for 2 times during their course of studies (B Tech or M Tech).
- Total financial assistance towards the above assistance for teaching staff cannot exceed 30000 INR per year.
 - There's an exception for SCI indexed publications. A person is eligible for full financial assistance as stipulated above for all SCI indexed publications without any upper sealing cap.
- Total financial assistance towards publications (journal + conference) for students cannot exceed 15000 INR for their entire course of study.
- Recommendations are made through the respective HOD and the final decision is taken by the Principal in consultation with the Management.

Abstract

It has become a great problem nowadays that the information contained in an IC chip is not provided with adequate security against the cunning attackers. The modern chip designs inbuilt with a design for testing (DfT) that enable testing process to become more easier, but it also acts as backdoor tool to the hackers to retrieve the sensitive data from the chip. So, in order for providing security for the information contained in the chip, we introduce a reconfigurable PUF design technique with the DfT. This security is achieved by providing a barrier against the hamming distance-based attack. In this paper, we compare the analysis of modified linear feedback shift registers (LFSRs), pseudorandom sequence generator, and physical unclonable function (PUF) in terms of randomness, hamming distance, and security. The result of comparison provides the PUF design have maximum security without effecting the testability of the circuits.

Sub : conference at Mangalore- Financial Assistance- Request from Fr. David Nettikkadan & Prof. Ratnan P. – Orders issued.
Ref : Representation from Fr. David Nettikkadan & Prof. Ratnan P. dated 23-05-2019.

Fr. David Nettikkadan, Asst. Prof., ECE Dept. And Prof. Ratnan P., Vice Principal, has attended a training programme conducted by MHRD from 9th to 22nd May 2019 at Mangalore, Karnataka state.

Both the above faculty members have requested for granting Registration Fee, TA & DA for participating the above said Training Programme.

The management has considered their request and decided to grant a sum of Rs. 20,300/- (Rupees twenty thousand three hundred only) to each faculty member as total expenses met for the training programme.

The amount mentined may be disbursed to the Faculty members.

ORDER

- Sub : Mr. Jithin K. Jose, AP, EE Dept.- Participation in Maker Fair Track IEEE YESIST12 2019 – Reimbursement Granted-reg.
- Ref : 1. Submission of Mr. Jithin K. Jose, AP, EEE.
2. Order JEC/2/A/8/20 dated 11 February 2020
3. Note Submitted by ADM dated 28-09-2020

Mr. Jithin K. Jose along with three students participated in the Maker Fair Track IEEE YESIST12 2019 Project competition held at Stamford University, Bangkok, Thailand. The team was permitted to attend the Fair and an amount of Rs. 15,000/- was paid to the students from the fund of IEEE- IAS & IEDC.

Mr. Jithin K. Jose, Team Leader was granted Rs. 16,000/- for initial expenses like Visa Processing etc.

After attending the conference, Mr. Jithin asked further financial assistance and the college passed the order cited (2) above on the presumption that Rs. 15,000/- given to the students as an advance payment to Mr. Jithin K. Jose. In the above order the college admitted Rs. 14,500/-, 75% of his travelling expenses and asked him to refund the balance Rs. 500/-.

It is hereby ordered to reimburse the admitted amount of Rs. 14,500/- to Mr. Jithin K. Jose. He need not refund any amount to the college. The order cited as 2 above is modified to this extend.

ORDER

Sub : Participation of Workshop at Delhi- Financial Assistance- Request from Mr. M. G. Cyriac, Associate Professor, CE Dept. – Orders issued.
Ref : Representation from Mr. M. G Cyriac, Associate Professor, CE Dept. dated 28-04-2018.

Prof. M. G. Cyriac, has attended a Workshop conducted by 'Unnath Bharath Abhiyaan (UBA)' on 25th April 2018 at New Delhi.

Prof. M. G. Cyriac has requested for granting food & accommodation charges only for participating the above said workshop. He has also stated that he availed the air travel concession which is available to him for his travel.

The management has considered his request and decided to grant a sum of Rs. 6,846/- (Rupees Six thousand eight hundred forty six only) to Prof. M. G. Cyriac as total expenses met in connection with the Workshop .

The amount mentined may be disbursed to the Faculty member.

Semi-Supervised Distributional Vector Generation Techniques for Text Classification

Mohammed Abdul Wajeed*

Computer Science and Engineering Department, Jyothi Engineering College, Cheruthuruthy - 679531, Kerala, India; drwajeedphd@gmail.com,

Abstract

Text class has loved its privilege as a core studies area in text mining. Supervised, unsupervised are the 2 famous paradigms within the technique of type. Relatively novel method of classification is semi-supervised mastering which is midway among the supervised and unsupervised getting to know. With smaller schooling statistics units and taking the large without problems to be had unlabeled data, the procedure of studying in class is refined. There are versions in semi-supervised, transductive gaining knowledge of wherein the trained and untrained facts are given in advance the classifier is built, the goal is to expect the magnificence label of untrained data. The opposite version is inductive learning in which the labeled and unlabeled statistics is utilized in model constructing; goal of the version is to predict the unseen information magnificence label. The paper aims to using transductive getting to know to classifying the textual statistics with the aid of considering the phrases appearing in special parts of the record. The words performing inside the introductory and conclusion a part of the files may additionally play important function within the procedure of type, than the ones seemed in other parts. The approach employed could provide one of a kind weights to words primarily based on their presence in one-of-a-kind role of the document. Taking into consideration the above within the procedure of mapping the textual facts into numerical patterns editions of distributed vector generations are acquired. Taking into account large differences in the duration of the documents, distinct normalization techniques are employed which gave eights one-of-a-kind vectors. Non-parametric, most effective to put into effect ok-nearest neighbour algorithm is hired for free-go with the flow textual classification. The outcomes received conclude that semi-supervised textual class can be carried out without loss in category accuracy where restrained skilled records is to be had, as the accuracies of the gaining knowledge of model in supervised and emi-supervised coincide with each other.

Keywords: Distributional Vectors, KNN, Semi-Supervised, Text Classification, Transductive Learning

1. Introduction

Text type has loved as a core studies region in domain of text mining particularly after the generation of electronic textual information mills. Greater ever the fee of textual records technology has multiplied due to the usage of intra, internet utilization in enormous areas. The sole cause to shop the data is for evidence checking alone, so no effort is employed to save the information in categorized repository. Keeping in view of the future wishes of choice making, if the statistics is stored in categorized repositories, then navigation and use of it decision making becomes simpler. The most popular models for records

classification commonly are supervised and unsupervised as given in¹. Supervised type is a predictive version where the task is to educate a version based totally on training records, the education records is classified. The version constructed is used to assign a pre-defined elegance label to new facts as in². Unsupervised mastering do not have education records, it corporations the given information into clusters primarily based at the similarity as in³. The statistics within the similar cluster are handled to belong to same magnificence. Semi-supervised is relative new process model which takes smaller education statistics units mixed with massive to be had unlabeled facts to categorise the records. Normally bag-of-words (bow)
